What will it cost?

The cost of this continuing education course is \$289 per person. With funding from the Trust Training Cooperative / Alaska Mental Health Trust Authority, we are able to offer this course for \$55 per person. To meet the funding goals, priority will be given to caregivers working with ADRD elders.

Sometimes excellent courses are canceled when too many people wait until the last minute to register. We need a minimum of students enrolled before a class will be held. To avoid any inconvenience to students and instructors, we cancel under-subscribed courses ahead of time. **Don't wait. Avoid disappointment. Register early and include your payment, or at least let us know you plan to attend.**

**Deadline for registration:
January 23, 2009**
