Did You Know?

Alaska has one of the highest rates of brain injury in the nation.... yet, there is not a single brain injury specific program in the State!

There are 800 Alaskans hospitalized each year with a moderate-severe brain injury; in order to receive comprehensive brain injury services, Alaskans search locally and the lower 48 for quality programs!

We invite you to participate in the Alaska Brain Injury Conference, where you will network with hospital discharge planners, case managers, information and referral specialists, and survivors/family members!

Alaskans look forward to learning more about your brain injury program!
